The Phenix Republican gives the following description of one of Yavapai county's important mining enterprises. The Republican is in error however in its closing paragraph in reference to the works at Camp Hattersley being the first in Arisons to mine for placer gold by means of the hydraulic system. The hyranlic system of placer mining has been in operation on Lynx creek, near Prescott, for over a decade of years, and during the past two months, and prior to the starting of the Humbug works, two hydraulic giants have been in operation. To the Lynx creek works belongs the credit of being the first, and for many years the only hydraulic works in the territory in operation. The Republican says:

"The works of the Humbug Creek Placer Mining company are in successful operation. Water was turned into the ditch about a week ago, and on Sunday was admitted to the 'giant' and the work of tearing down the auriferous canyon walls commenced.

"The ditch is capable of easily carryng 1,800 miners' inches of water, bu at present is running but 1,000 inches the full capacity of the 'giant.' This peculiarly western implement of mining is handled under a pressure of about forty pounds and throws a stream of water five inches in diameter. effects upon the high gravel banks that line the stream is marvelous and at times terrifying, as rocks weighing tons are detached by the force of the stream and sent bounding down the canyon. was arrested, convicted of manslaugh. The 'giant' is operated from a platform in the river bed and the work of direct ing it is not devoid of danger. As the water supply is ample, a nozzle of greater size is to be at once substituted

for the one now in use. "The sluice laid along the bottom ries with ease all the boulders detached prospect seems good for a royal clean-up. "Both the main and deflection dams stood the flood in an admirable manner. Great cottonwood trees, torn un by the roots, were hurled by the rush-States mail sack, locked and strapped, subsided not a stone or timber was of nuggets, had been picked up. Six enterprise. Superintendent Keating ascribes much of the strength of the dam to the fact that the rock used in its construction had been set in and burned in the neighborhood. He con siders it about equal to Portland ce ment for such uses. Inasmuch as the freshet just experienced was the most severe ever known, the safety of the dam seems assured for all time to come "The sands of the Humbug and other

streams draining the southern Brad shaws are full of gold, washed for millions of years from the vast mineral deposits of these mountains. Placer mining by the rudest methods has demonstrated this beyond dispute, and thou sands of dollars have been taken from the bed of the Humbug alone, with th

aid of the ground-sinice and cradle. "The works at Camp Hattraley are however the first in Arizona to mine for Placer gold by means of the hydraulic system, long since proven in California to be the most effective and economical. To that company, then, in so rich a field, must be expected to secrue profit worthy of the palmiest days in the diggings of the Golden State."

Mr. and Mrs. L. H. Wilson, the former, auditor of the Prescott & Arizona Central railroad, are en route to Prescott via Los Angeles. This couple formerly resided in Prescott, and have many friends who will be glad to extend a cordial welcome to them on the occasion of this visit.

During the recent session of the legislature 132 bills were introduced in the council, of which 62 became laws. In the house 138 bills were introduced, of which 44 became laws. Six bills were vetoed by the governor-all except one, the gerrymandering appropriation bill, being by request. Five bills failed to become laws because of failure to receive the governor's signature, by what is known as a "pocket veto."

An act passed by the legislature re cently reads as follows: "That in all cities of Arizons Territory, in which the total the Grand Army of the Republic, De- vote cast at the general election held therein on the 4th day of November, 1890, was less than 600, the only officers shall be one mayor, and one coun yesterday Commander Coats presiding, cilman from each ward therein, and one marshal or chief of police." This act takes effect March 31st, at which time all officers previously elected are peremptorily ordered to vacate their respective offices, and failing to do so will be visited with dire consequences Prescott just saved herself by twenty votes from the operation of this law, as the total vote cast at the November

W. McCray, the victim of yesterday's fracas, is still alive and strong hopes are entertained of his recovery. His assailant's name is Lauterio Aguilar, and hails from Texas originally, his faher, it is alleged, being a negro and his mother a Mexicup woman. He has worked at various restaurants in 'he town, and and on the railroad, and when at work and not drinking, is represented as being a quiet and peaceable young man. When in liquor, however, those who know him best state that he is quarrelsome and is never without a bowie-knife, which he is ready to use on the slightest provocation.
